

DENTASA NEWS

The DENTASA AGM is from now on one of THE events on the dental calendar. Looking back, the 2005 AGM was most successful for the traders and informative and inspirational for the members. Although our star attraction Mr. Willi Geller fell ill and could not attend we still had 220 delegates on Saturday at the St. George Hotel.

Glen Boyd and Theunis Bakker received a Lifetime Achievement Award for their services to the profession. We also bid a sad farewell to Aubrey du Plessis who is retiring as chairman of the Kwazulu-Natal branch.

The traders pulled out all the stops with a wonderful exhibition and GREAT prizes. Thanks guys, you made it all possible.

We had a full and important agenda, the minutes and some photos are posted on the DENTASA website. All the resolutions taken are there for your perusal.

It is also important to remember that the election of your new Executive Committee will be taking place early in 2006. Please identify colleagues that you would want to represent the profession.

It's with pleasure that we can state that DENTASA's membership is growing in leaps and bounds, thanks to all the members that attended the AGM and welcome to our new members.

Please diarise the first weekend in June 2006 as the traders are already making plans for some great international speakers.

DENTASA is going places, don't miss the train and stay behind.
